**Band Concerts Are Becoming Popular and Programmes Are High Class.**

By STAFF CORRESPONDENT.

Camp Ordway, Bolivar Heights, W. Va., Aug. 13.—Camp Ordway was almost destroyed this afternoon by a tornado of short duration which swept over the mountains, with a severe rainstorm. Missions in the field were destroyed, the skin and tents were torn from their pegs. Company D, of the Second Infantry, was the camp which suffered the greatest damage, as its cook tent was overturned and many of the other tents damaged.

Men were put to work all over the camp to repair the damage, and only a few were allowed to leave the reservation to-night. Telephone and telegraph lines suffered greatly.

Because of the extraordinarily large number of National Guardsmen in camp this year, Maj. Boyd Taylor, Paymaster of the National Guard of the District of Columbia, has asked the Treasury for an extra \$5,000. Fifty thousand dollars has already been allotted by the War Department for the United States pay of the troops in the field, which is an extra amount over and above regular pay provided for the District appropriation from Congress. By the time the pay rolls are made up and ready to be distributed the men will be quite willing to wait, as many of them show signs of being broke already.

**Jehus Are Busy.**

Some of the officers were growing around their tents this morning because Harpers Ferry hackmen charged \$1 to carry one person from the station to the camp on Sunday, and talks of a "strike" against coming to camp at Bolivar Heights again was heard. However, the "strike" had not assumed serious proportions. On the other hand, the hackmen refused to compromise and retorted by saying that Harpers Ferry would not be sorry if the Guard should choose another camping ground.

Camp Bolivar presented an unusually busy scene this morning, from 7 o'clock until camp was out for drill, including in camp went out for drill, including the regular battery and the troop of cavalry. The first and second infantry and the First Separate Battalion were in the line in the movements of "extended order," simulating a firing line in battle, and being taught to advance by rushes, lie down and fire, and to seek cover from an enemy's bullets. The whistle signals and arm motion signals of the officers were new to many of the men.

The signal company, mounted, went through with some elementary practice in laying a field telephone wire. The regular battery went through with a first drill, watched by officers of the First Separate Battalion and the First Cavalry. Fred Austin was in command of the regulars. While the District's battery was maneuvering in the field, one of the caissons tipped over, only by a rare chance did the men escape without a scratch.

**Ambulance Company Drills.**

The ambulance company, under the guidance of Capt. W. D. Fales and Lieut. W. B. Hudson worked hard with a field drill with ambulances, and carried invisible wounded men all over the field.

After the drills of the morning the men marched back to their camps, stacked their arms, and then marched out again to take part in a general cleaning up of the camp site, which is called "polishing," as it is called. Maj. Thacker V. Walker, field officer of the day, was in command of this white wings squad, which picked every scrap of paper left on the ground by the 4,000 visitors of yesterday. Col. Joseph G. Garrard, commanding the Fifteenth Cavalry, and in command of this camp, ordered a lecture in front of his tent last night. Practically every commissioned officer in camp attended to hear him speak on the duties of company officers. Noncommissioned officers of both regiments lined out in the country to go over the maneuver grounds on which the battles will be fought at the close of the encampment.

**Bands Are Popular.**

The bands of both regiments are making themselves very popular with the men. Two concerts in camp every night furnish plenty of music. One of the bands plays at brigade headquarters, and the other band plays in its own regimental camp. Sunday night's concert by the Second Infantry, Artillery, and Cavalry, "Meet Me to-night in Dreamland," James G. Moody, leader, has arranged a complimentary band concert for Col. Garrard for Tuesday night, August 21. The program will include "The Favorite Regiment," "Light Cavalry Overture," "Characteristic Medley—An Evening in Camp," "Medley of Popular Hits," quartet from "Ragtime," selections from the "Bohemian Girl," and "Light Cavalry."

Maneuvers at the end of the week will cover an enormous stretch of territory, and a board of officers has been appointed to deal with the inhabitants of this county, who will put in claims for damage by the troops. All possible care will be taken not to injure growing crops this year. The board consists of Lieut. Reginald and Lieut. Earnshaw, Hammond, and Adams, of the Second.

An invitation was extended to the officers of the First and Second regiments, the battery, signal company, ambulance company, and brigade staff, together with all regular officers in camp to attend a cotillion at the Hill-top House in Harpers Ferry to-morrow night.

**ENOUGH FUNDS FOR CANAL.**

Financial Statement to Be Finished with Money on Hand.

It was announced at the Treasury Department yesterday that the Panama Canal will be completed with funds now available in the Treasury, and that there is no reason to require Panama Canal bonds.

Secretary MacVane estimates that the canal will cost between \$100,000,000 and \$120,000,000. Two hundred and eighty millions have already been expended, \$100,000,000 bonds issued, and \$180,000,000 paid out of the Treasury. Should additional money be necessary, it can be drawn from a surplus amounting to \$100,000,000 now on hand.

**WILSON TALKS TO BIG THROUG**

Dwells on Responsibility of Government to Foreigners in Speaking to Germans.

Hoboken, N. J., Aug. 19.—Gov. Wilson addressed 13,000 persons in Schuylkill Park, Union Hill, this afternoon, at the annual picnic of the Plattdeutscher Volksverein.

From a high balcony the Governor spoke, while bands paraded in other parts of the park and thousands of people surged back and forth on the fringe of a crowd deeply massed about the speaker. There were frequent interruptions of applause and remarks.

"We are asking ourselves this question," said the Governor, "as we face the coming elections in November. 'Which is the open road to get what we want?'"

A man in the crowd answered, "Taft!"

There was a moment's silence, when another voice nearer the front shouted "Wilson!"

The crowd took it up and cheered.

When the demonstration had subsided the governor pointed in the direction of the man who had answered "Taft" and continued:

"Our friend over there is perfectly welcome to use his road, but if he goes that way he will find that he is in a blind alley, because there is one thing that was proved at Baltimore, and that is that the people of the United States choose their candidates and the bosses do not."

The Governor dwelt upon the responsibility of the government in making this country attractive to the foreigner so that when he did come he would find it a "place of economic opportunity, where a man may choose his own career."

**GOOD HUNTING PROMISED.**

Marshes Attract Flocks of Reed and Blackbirds.

Marshes near the city are covered with a heavy growth of grain-bearing grasses, and there is every prospect that the good forage will attract large flocks of reed birds and blackbirds by September when the grain is ripe.

Several large flocks of birds have already made their appearance on the marshes of the Eastern Branch, while those along the Potomac, near Jackson City, at Four Mile Run, and at Shepherd's Landing, will already be in the good shooting.

The harbor police have been patrolling the hunting grounds of the District for more than a week to prevent shooting before the season opens. Not a gun has been fired and the birds are quite tame.

**INSTALL SANITARY FOUNTAINS.**

Commissioners Seek to Abolish Common Drinking Cup.

Sanitary drinking fountains were installed in the District Building yesterday. They have been installed in all the public schools, and the Commissioners desire to obtain legislation from Congress providing for the use of the public drinking cup throughout the District.

The District officials have sent to Congress a draft of such a bill, authorizing them to make rules and regulations necessary to effect the abolishment of the common drinking cup. The measure provides that a fine of \$5 be inflicted upon any person, firm, or corporation displaying in any public place a cup to be used by the public.

There is little chance that the bill will be acted upon at this session of Congress, but in the meantime sanitary drinking fountains are being placed in all public buildings.

**OVER HALF OF ALL SICKNESS CAUSED BY CLOGGED UP WEAKENED KIDNEYS**

Hundreds Are Suffering with Kidney Trouble and Don't Know It. Backache, Bladder Disorder and Rheumatism Are the Result.

It is a well recognized fact among physicians to-day, that the greater part of all sickness can be avoided by keeping the kidneys working properly.

This is even more important than for the bowels to move regularly, because the kidneys and bladder are the filters and sewers of the body. If you suffer with pains in the back or sides, bladder or urinary disorders, lumbago, rheumatism, diabetes, puffy swellings under the eyes or in the feet and ankles, nervousness, tired and worn-out feeling, or any of the many other symptoms of kidney trouble, don't neglect yourself another day and run the risk of serious complications. Secure an original package of Croxone, which costs but a trifle, take three doses a day, for a few days, and you will be surprised how entirely different you will feel.

Croxone cures the very worst cases, because it removes the cause of such trouble. It soaks right in and cleans out the kidneys and makes them filter out all the poisonous waste matter and uric acid that lodges in the joints and muscles, causing rheumatism, sooths and heals the bladder and quickly effects a permanent, positive, lasting cure. It is the most wonderful remedy ever made for the purpose. You will find it entirely different from anything you have ever used. There is nothing else on earth to compare with it. It matters not how old you are or how long you have suffered, the very principle of Croxone is such that it is practically impossible to take it into the human system without results.

You can secure an original package of Croxone from any first-class drug store, such as O'Donnell's Drug Store, 904 F St., which will personally return the purchase price if Croxone fails to give the desired results the very first time you use it.

**WILL TURN DOWN TAFT SUGGESTION**

Plan to Throw Treaty Interpretation Into Court Unpopular in Congress.

**BILL WILL BE SIGNED**

President Taft sent to Congress yesterday afternoon a special message on the Panama Canal bill. He urges the passage by Congress of a joint resolution which will make it apparent before the world that the United States has no intention of violating the Hay-Pauncefote treaty. This resolution, in the President's opinion, should take the form of a declaration that the present legislation will not supersede any treaty rights conferred by the Hay-Pauncefote convention. The President would leave it to the United States Supreme Court to construe the treaty and determine whether or not the granting of free tolls to American ships in the coastwise trade constituted a violation of it. President Taft himself holds that the legislation in its present form does not violate the treaty, but inasmuch as there is a difference of opinion he believes that an apparent justification for criticism.

The free tolls provision is the only objection that the President cites to the bill, as it has been laid before him.

**House Leaders Hostile.**

The Democratic leaders of the House will refuse to support a resolution such as the President suggests, and his effort along this line will undoubtedly fail. The House leaders contend that if the Panama bill violates the treaty, Mr. Taft should veto it, and if it doesn't he should sign it. They say that the resolution that he proposed would involve a large amount of legislation and would weaken the contention of Congress that the United States has the right under the treaty to grant free tolls. There is considerable opposition to the President's proposal also in the Senate.

What the President will do when Congress turns down his joint resolution suggestion has not been definitely settled. Many believe that having put himself on record in the message to Congress, he will sign the bill because he believes the fixing of the tolls and the provision for a legal machinery for the operation and government of the canal are imperative. On the other hand, many of the President's friends and advisers are urging him to veto the bill.

**SANTO DOMINGO PROSPERS.**

Collection of Customs Likely to Result in \$100,000 Surplus.

William E. Pulliam, special collector of customs in Santo Domingo, yesterday informed Acting Secretary of State Wilson that the preparatory reports for the collection of customs in that republic indicate a far larger total than ever before.

It is thought that there will be a surplus of at least \$100,000—something never before attained during the five years which the United States has had supervision of the revenues in Santo Domingo.

**\$50,000 for Mission House.**

The family of Michael Cuddey, the late millionaire packer, has contributed \$50,000 to the Very Rev. John J. Hughes, superior general of the Paulist Fathers in New York, to be used on the Paulist Mission House in Brookland. The gift was made through Joseph Cuddey, son of the late packer, and executor of the estate.

**Returning from Alaska.**

Commissioner E. E. Clark, of the Interstate Commerce Commission, is on his way back to Washington from Alaska, where he conducted a hearing in the Humboldt case, over which the Supreme Court gave the Commerce Commission jurisdiction. Only two members of the commission are now in the city. They are Commissioner C. C. McChord and Chairman J. C. Clements.

**Clarendon Citizens to Meet.**

The Clarendon Citizens' Association will meet to-night to discuss the bettering of local conditions. A committee will be appointed to canvass the county in order to obtain the co-operation of as many citizens as possible. Improved water supply and sewage disposal are the principal objects of the campaign.

**SEVEN AEROPLANES IN USE.**

Army Aviators to Employ Large Number of Machines This Week.

Seven aeroplanes will be used at the army aviation field at College Park this week. There will be two new machines, not yet accepted by the government, among them one a weight-carrying machine, and the other a speedy scouting craft.

The Signal Corps will resume the training of several young aviators. Officials of the corps feel that the passage of a pending bill, providing for extra pay for officers detailed to the flying squad, will aid greatly in getting recruits for the work. Members of the squad have been told that owing to the extra hazard of their calling, their insurance must be cancelled, and the greater compensation would enable them to make provision for their families in case of accidents.

**NAMES HANFORD'S SUCCESSOR.**

President Nominates Clinton W. Howard for Federal Judgeship.

President Taft yesterday nominated Clinton W. Howard, of Bellingham, Wash., to be United States judge for the Western District of Washington, succeeding Judge Cornelius W. Hanford, who resigned under impeachment investigation.

Howard's selection was endorsed by both Senators from Washington.

**Colored Masons in Session.**

The tenth annual session of the Colored Masonic Lodge, Imperial Council, Ancient Egyptian Arabic Order, Nobles of the Mystic Shrine, opened yesterday at Metropolitan A. M. E. Church. Several hundred members were in attendance. This evening the Shrine will have a gala night at Howard Theater.

**WEATHER CONDITIONS.**

U. S. Dept. of Agriculture, Weather Bureau, Washington, D. C., Aug. 19, 1912.

High temperatures continued during Monday in the Southern States, Middle Atlantic States, the Ohio Valley, and the Atlantic States, and the Middle Valley States. Temperatures continue below the seasonal average along the northern border from New England to the Dakotas and generally west of the Rocky Mountains.

There were local rains in the last twenty-four hours in the Northern States east of the Rocky Mountains, and in the Ohio Valley, and at several points in the South Atlantic States. No disturbance of any consequence appears within the area shown by observation.

The indications are that there will be showers Tuesday in the region of the Great Lakes, the Ohio Valley, and the Atlantic States, and Wednesday in the last named region. In all other parts of the country the weather will remain fair Tuesday and Wednesday.

**Local Temperatures.**

Monday, Aug. 19, 1912. 7:4 a. m., 75; 8 a. m., 76; 9 a. m., 77; 10 a. m., 78; 11 a. m., 79; 12 m., 80; 1 p. m., 81; 2 p. m., 82; 3 p. m., 83; 4 p. m., 84; 5 p. m., 85; 6 p. m., 86; 7 p. m., 87; 8 p. m., 88; 9 p. m., 89; 10 p. m., 90; 11 p. m., 91; 12 m., 92.

**Temperatures in Other Cities.**

Temperatures in other cities, together with the amount of rainfall for the twenty-four hours ended at 4 p. m. yesterday, are as follows:
